(4) This paragraph applies where the relevant energy efficiency improvement falls within any of paragraphs (d), (n) or (v) of the Schedule to the Green Deal (Qualifying Energy Improvements) Order 2012, and the landlord, or the superior landlord, has obtained a written opinion described in regulation 10(4).

(5) A superior landlord must, no later than six weeks after the date of service on the superior landlord of a copy of the landlord's initial response or, where the landlord's initial response states that the landlord intends to serve a counter proposal, no later than six weeks after the date of service of the landlord's intended counter proposal, serve a notice (a "superior landlord's response") on the landlord—

- (a) stating, in relation to each of the relevant energy efficiency improvements falling within regulation 12(4), or to each of the energy efficiency improvements in the intended counter proposal that may not be made without the consent of the superior landlord (as the case may be), whether the superior landlord consents to the making of that improvement, and

Landlord's initial and full response to tenant's request

12.—(1) Where the landlord intends to serve a counter proposal in accordance with regulation 13, the landlord must—

 - (i) no later than one month after the date of service of the tenant's request, serve copies of the tenant's request and the landlord's initial response on the superior landlord, and
 - (ii) no later than two months after the date of service of the tenant's request, serve a copy of the intended counter proposal on the superior landlord requesting the superior landlord's consent to the making of the energy efficiency improvements specified in the intended counter proposal, and
- (c) no later than four months after the date of service of the tenant's request, serve a notice ("a landlord's full response") on the tenant which complies with paragraphs (8) and (11).

(2) Where one, or both, of paragraphs (4) and (7) applies in relation to a relevant energy efficiency improvement specified in a tenant's request, the landlord must—

- (a) no later than one month after the date of service of the tenant's request, serve a landlord's initial response on the tenant which complies with paragraph (6), and

- (b) no later than three months after the date of service of the tenant's request, serve a landlord's full response on the tenant which complies with paragraphs (8) and (11).
- (3) In any case not falling within paragraphs (1) and (2), the landlord must, no later than one month after the date of service of the tenant's request, serve a landlord's full response on the tenant which complies with paragraphs (8) and (11).
- (4) This paragraph applies in any case where a landlord consents to one or more relevant energy efficiency improvements specified in a tenant's request which may not be made without the consent of a superior landlord.
- (5) Where paragraph (4) applies, the landlord must serve on the superior landlord—
 - (a) no later than one month after the date of service of the tenant's request, copies of the tenant's request and any supporting documents, and the landlord's initial response, and

 - (b) where paragraph (4) applies, which of the relevant energy efficiency improvements specified in the tenant's request are those that fall within paragraph (4),
 - (c) where paragraph (4) applies, confirm that the superior landlord has been served with a copy of the tenant's request,
 - (d) whether the landlord intends to serve a counter proposal in accordance with regulation 13, and
 - (e) that the landlord will serve a full response.
- (7) This paragraph applies in any case where the landlord wishes to obtain evidence or advice before deciding whether to consent to one or more of the relevant energy efficiency improvements specified in the tenant's request, as a result of one or more of the following—
 - (a) the tenant's request was not accompanied by a report specified in regulation 8(2)(c),
 - (b) the tenant's request specifies a relevant energy efficiency improvement which falls within any of paragraphs (d), (n) or (v) of the Schedule to the Green Deal (Qualifying Energy Improvements) Order 2012, and the landlord intends to obtain a written opinion from a relevant person or a person specified in regulation 10(4)(b) as to whether that energy efficiency improvement is an appropriate energy efficiency improvement for the domestic PR property,

 - (c) be accompanied by any counter proposal made in accordance with regulation 13.
- (9) In any case where the landlord, and where relevant any superior landlord, consents to the making of all the relevant energy efficiency improvements specified in the tenant's request, the landlord may serve a notice on the tenant (with the landlord's full response or, where paragraph

(4) applies no later than two weeks after the date of service of the superior landlord's response, whichever is the later)—

- (a) stating that the landlord wishes to make those relevant energy efficiency improvements,
- (b) specifying the date by which the landlord proposes to make those relevant energy efficiency improvements, which must be no later than six months from the date of service of that notice,

(10) Where—

- (a) a notice under paragraph (9) is served and
- (b) the tenant gives any confirmation referred to in paragraph (9)(c) which is required,

the tenant may not make the relevant energy efficiency improvements specified in the tenant's request unless the landlord fails to make them by the date specified in paragraph (9)(b).

(11) In any case where—

- (a) the landlord does not give consent to the making of a relevant energy efficiency improvement specified in the tenant's request, on the grounds that—
 - (i) the improvement is not a relevant energy efficiency improvement,
 - (ii) the tenant's request has not been validly served,
 - (iii) regulation 10(3) or (4) applies,
 - (iv) one, or both, of the exemptions in Chapter 3 applies, or for any other reason, or
- (b) the landlord refuses to give any confirmation which must be obtained from the landlord by virtue of regulation 36 of the Framework Regulations,

the landlord's full response must state that the consent or the confirmation (as the case may be) is not given, set out the landlord's reasons, and be accompanied by any relevant supporting evidence.

Counter proposal

13.—(1) A landlord's full response may include a notice (a "counter proposal") specifying an energy efficiency improvement, or a combination of two or more energy efficiency improvements, which differ from the relevant energy efficiency improvements specified in the tenant's request.

(2) In any case where the consent of a superior landlord is required before any such energy efficiency improvement can be made, the counter proposal may not be served on the tenant unless the superior landlord has consented to the making of every such energy efficiency improvement specified in it.

(3) A counter proposal must—

- (a) specify the energy efficiency improvement, or combination of energy efficiency improvements, proposed by the landlord,
- (b) specify what works, if any, will be undertaken to make good the domestic PR property after the energy efficiency improvement, or combination of energy efficiency improvements, are made,
- (c) confirm that all the energy efficiency improvements specified in the counter proposal would deliver the same, or substantially the same, savings on the energy bills for the domestic PR property as all the relevant energy efficiency improvements specified in the tenant's request,

- (d) confirm that all the energy efficiency improvements specified in the counter proposal would not result in an initial, or a continuing, cost to the tenant which exceeds the cost of all the relevant energy efficiency improvements specified in the tenant’s request,
 - (e) specify the date by which the landlord proposes to make all the energy efficiency improvements specified in the counter proposal, which must be no later than six months from the date of service of the counter proposal,
 - (f) seek the tenant’s consent to the making of all the energy efficiency improvements specified in the counter proposal,
 - (g) where the making of any of the energy efficiency improvements is to be funded wholly or partly through a green deal plan, seek any confirmation which must be obtained from the tenant by virtue of regulation 36 of the Framework Regulations, and
 - (h) confirm that the landlord has obtained any third party consent.
- (4) The savings on the energy bills for the property referred to in paragraph (3)(c) must be calculated using the approved methodology.
- (5) Where a counter proposal is served—
- (a) the tenant’s request ceases to have effect,
 - (b) the tenant must within one month of the date of service of the counter proposal serve a notice on the landlord (a “counter proposal response”) which—
 - (i) states whether the tenant consents to the making of all or any of the energy efficiency improvements specified in the counter proposal, and
 - (ii) states whether the tenant gives any confirmation which must be obtained from the tenant by virtue of regulation 36 of the Framework Regulations in relation to any green deal plan with which the landlord proposes to fund the making of the energy efficiency improvements, and
 - (c) provided the tenant gives any consent and confirmation referred to in sub-paragraph (b) which is required, the landlord must make any energy efficiency improvement specified in the counter proposal by the date specified in paragraph (3)(e).

Effect of an improvement notice

14.—(1) In any case where a superior landlord served with a copy of a tenant’s request under regulation 12(5) or with an intended counter proposal under regulation 12(1)(b)(ii), has also been served with an improvement notice in relation to the domestic PR property, or the building of which it forms part, the superior landlord must, as soon as reasonably practicable after the date of service of the tenant’s request or the intended counter proposal (as the case may be)—

- (a) provide the landlord with a copy of the improvement notice, and
- (b) specify the works which the superior landlord intends to carry out to comply with the improvement notice, and the date by which the superior landlord proposes to carry out those works.

(2) In any case where a landlord served with a tenant’s request has been served with an improvement notice, or the superior landlord has complied with paragraph (1), the landlord must as soon as reasonably practicable—

- (a) serve a copy of the improvement notice on the tenant, and
- (b) specify the works which the landlord, or the superior landlord (as the case may be), intends to carry out to comply with the improvement notice, and the date by which the landlord, or the superior landlord (as the case may be) proposes to carry out those works.

(3) Where a tenant is served with a copy of an improvement notice in accordance with paragraph (2) at any time before the landlord’s full response is served, the tenant’s request ceases to have effect.

CHAPTER 3

Exemptions

Consent exemption

15. Regulations 10(1) and 11(1) do not require a landlord, or a superior landlord (as the case may be), to consent to the making of a relevant energy efficiency improvement specified in a tenant's request where, despite reasonable efforts by the landlord, or the superior landlord (as the case may be), any third party consent has been—

- (a) refused, or
- (b) granted subject to a condition with which the landlord, or the superior landlord (as the case may be), cannot reasonably comply.

Devaluation exemption

16. Regulations 10(1) and 11(1) do not require a landlord, or a superior landlord (as the case may be), to consent to the making of—

- (a) a relevant energy efficiency improvement, or
- (b) a combination of two or more relevant energy efficiency improvements,

specified in a tenant's request where a report prepared by an independent surveyor states that the relevant energy efficiency improvement, or combination of relevant energy efficiency improvements (as the case may be), would result in a reduction of more than 5% in the market value of the domestic PR property, or of the building of which it forms part.

CHAPTER 4

Enforcement

Application to the First-tier Tribunal

17.—(1) In any case where a tenant has served a tenant's request, the tenant may apply to the First-tier Tribunal on the grounds that—

- (a) the landlord failed to serve a landlord's initial response, or a landlord's full response, in accordance with regulation 12,
- (b) the landlord refused consent to the making of a relevant energy efficiency improvement specified in the tenant's request other than in accordance with these Regulations,
- (c) the landlord's counter proposal fails to comply with regulation 13, or
- (d) the landlord served a counter proposal and the tenant gave any consent and confirmation referred to in regulation 13(5)(b) which was required, but the energy efficiency improvement specified in the landlord's counter proposal was not made by the date specified in accordance with regulation 13(3)(e).

(2) In any case where a superior landlord was served in accordance with regulation 12(5), the tenant may apply to the First-tier Tribunal on the grounds that the superior landlord refused consent to the making of a relevant energy efficiency improvement specified in the tenant's request other than in accordance with these Regulations.

Determination of an application

18.—(1) The First-tier Tribunal must determine whether—

- (a) the landlord's, or the superior landlord's, refusal of consent,
- (b) the landlord's initial response,
- (c) the landlord's full response,

- (d) the counter proposal, or
- (e) the landlord's failure to make energy efficiency improvements specified in a counter proposal,

failed to comply with these Regulations.

(2) If the First-tier Tribunal determines that the landlord, or the superior landlord (as the case may be), has failed to comply with these Regulations in any manner referred to in paragraph (1), the First-tier Tribunal may by Order consent to the making of any relevant energy efficiency improvement specified in the tenant's request.

PART 3

Minimum level of energy efficiency

CHAPTER 1

Interpretation of Part 3

Domestic PR property

19.—(1) For the purposes of this Part, “domestic PR property” means a property which falls within section 42(1)(a) of the Act, subject to paragraph (2).

(2) A property is not a domestic PR property if—

- (a) it was not required, and is not part of a building which was required, to have an energy performance certificate^(a) by the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007, and
- (b) it is not required, and is not part of a building which is required, to have an energy performance certificate by the Building Regulations 2010 or the EPB Regulations.

Non-domestic PR property

20.—(1) For the purposes of this Part, “non-domestic PR property” means a property which falls within section 42(1)(b) of the Act, subject to paragraphs (2) and (3).

(2) A property is not a non-domestic PR property if—

- (a) it was not required, and is not part of a building which was required, to have an energy performance certificate by the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007, and
- (b) it is not required, and is not part of a building which is required, to have an energy performance certificate by the Building Regulations 2010 or the EPB Regulations.

(3) A property is not a non-domestic PR property if it is let—

- (a) on a tenancy granted for a term certain not exceeding six months, unless—
 - (i) the tenancy agreement contains provision for renewing the term or for extending it beyond six months from its beginning, or
 - (ii) at the time when the tenancy is granted, the tenant has been in occupation for a continuous period which exceeds 12 months, or
- (b) on a tenancy granted for a term certain of 99 years or more.

(a) “Energy performance certificate” has the meaning given in sections 43(4) and 49(4) of the Act. That is, by virtue of section 42(3) of the Act, the meaning given in the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007 (S.I. 2007/991). Those Regulations were revoked and replaced by the Energy Performance of Buildings (England and Wales) Regulations 2012, regulation 2(1) of which contains the definition of energy performance certificate.

Landlord and tenant

21. For the purposes of this Part—

- (a) “tenant” means a person to whom—
 - (i) a domestic PR property is let on a tenancy which falls within section 42(1)(a) of the Act, or
 - (ii) a non-domestic PR property is let,
- (b) “landlord” means a person who lets, or proposes to let—
 - (i) a domestic PR property on a tenancy which falls within section 42(1)(a) of the Act, or
 - (ii) a non-domestic PR property.

Sub-standard property

22. For the purposes of this Part—

- (a) a domestic PR property, or a non-domestic PR property, is “sub-standard” where the valid energy performance certificate expresses the energy performance indicator of the property as being below the minimum level of energy efficiency,
- (b) “minimum level of energy efficiency”, in relation to a domestic PR property and a non-domestic PR property, means an energy performance indicator of band E,
- (c) an energy performance certificate for a property is “valid” where—
 - (i) it was entered on the register required to be maintained by regulation 27(1) of the EPB Regulations no more than 10 years before the date on which it is relied on for the purposes of these Regulations, and
 - (ii) no other energy performance certificate for the property has since been entered on that register.

CHAPTER 2

Domestic PR property falling below the minimum level of energy efficiency

Prohibition on letting of sub-standard property

23.—(1) A landlord of a sub-standard domestic PR property must not let the property unless regulation 25, or one or more of the exemptions in Chapter 4, applies.

(2) For the purposes of paragraph (1), “let the property” means—

- (a) on or after 1st April 2018, grant a new tenancy which falls within section 42(1)(a) of the Act, or let the property on such a tenancy as a result of an extension or renewal of an existing tenancy, or
- (b) on after 1st April 2020, continue to let the property on such a tenancy.

Relevant energy efficiency improvements

24.—(1) Subject to paragraph (2), for the purposes of paragraph (a) in the definition of “relevant energy efficiency improvements” in section 43(4) of the Act, a relevant energy efficiency improvement is an energy efficiency improvement—

- (a) which—
 - (i) falls within sub-paragraph (a) of the definition of “energy efficiency improvement” in regulation 2(1) and is listed in the Schedule to the Green Deal (Qualifying Energy Improvements) Order 2012, and
 - (ii) is identified as a recommended improvement for that property in a green deal report, a recommendation report, or a report prepared by a surveyor, or

- (b) which falls within sub-paragraph (b) of the definition of “energy efficiency improvement” in regulation 2(1).

(2) An energy efficiency improvement which falls within any of paragraphs (d), (n) or (v) of the Schedule to the Green Deal (Qualifying Energy Improvements) Order 2012 is not a relevant energy efficiency improvement where the landlord has obtained a written opinion from—

- (a) a relevant person, or
- (b) an independent installer of the energy efficiency improvement in question who meets the relevant installer standards,

advising that it is not an appropriate improvement, due to its potential negative impact on the fabric or structure of the domestic PR property, or the building of which it forms part, and the landlord has registered information in accordance with regulation 36(2).

(3) For the purposes of paragraph (b)(iv) in the definition of “relevant energy efficiency improvements” in section 43(4) of the Act, an energy efficiency improvement is a relevant energy efficiency improvement where the cost of purchasing and installing it—

- (a) can be wholly financed, at no cost to the landlord, by means of funding provided by central government, a local authority, or any other person, or
- (b) can be wholly financed by a combination of two or more of the financial arrangements in paragraph (a), and paragraph (b)(i) to (iii) in the definition of “relevant energy efficiency improvements” in section 43(4) of the Act.

Relevant energy efficiency improvements undertaken

25.—(1) Subject to paragraph (2), this regulation applies where—

- (a) the landlord of a sub-standard domestic PR property has made all the relevant energy efficiency improvements for the property, or
- (b) there are no relevant energy efficiency improvements that can be made to the property.

(2) This regulation applies for a period of five years starting with the date on which the landlord registers information in accordance with regulation 36(2).

Sub-standard property let in breach of these Regulations

26. In any case where a landlord lets, or continues to let, a domestic PR property in breach of regulation 23, that breach does not affect the validity or enforceability of any provision of the tenancy.

CHAPTER 3

Non-domestic PR property falling below the minimum level of energy efficiency

Prohibition on letting of sub-standard non-domestic PR property

27.—(1) A landlord of a sub-standard non-domestic PR property must not let the property unless regulation 29, or one or more of the exemptions in Chapter 4, applies.

(2) For the purposes of paragraph (1), “let the property” means—

- (a) on or after 1st April 2018, grant a new tenancy which falls within section 42(1)(b) of the Act, or let the property on such a tenancy as a result of an extension or renewal of an existing tenancy, or
- (b) on or after 1st April 2023, continue to let the property on such a tenancy.

Relevant energy efficiency improvements

28.—(1) Subject to paragraph (2), for the purposes of paragraph (a) in the definition of “relevant energy efficiency improvements” in section 49(4) of the Act, a relevant energy efficiency improvement is an energy efficiency improvement—

- (a) which is listed in—
 - (i) the Schedule to the Green Deal (Qualifying Energy Improvements) Order 2012, or
 - (ii) Table 6 of the Building Regulations Approved Document L2B(a), and
- (b) has been identified as a recommended improvement for that property in a green deal report, a recommendation report, or a report prepared by a surveyor.

(2) An energy efficiency improvement which falls within any of paragraphs (d), (n) or (v) of the Schedule to the Green Deal (Qualifying Energy Improvements) Order 2012 is not a relevant energy efficiency improvement where the landlord has obtained a written opinion from—

- (a) a relevant person, or
- (b) an independent installer of the energy efficiency improvement in question who meets the relevant installer standards,

advising that it is not an appropriate improvement, due to its potential negative impact on the fabric or structure of the non-domestic PR property, or the building of which it forms part, and the landlord has registered information in accordance with regulation 36(2).

(3) For the purposes of paragraph (b)(ii) in the definition of “relevant energy efficiency improvements” in section 49(4) of the Act, an energy efficiency improvement listed in Table 6 of the Building Regulations Approved Document L2B is a relevant energy efficiency improvement for a property where the improvement would achieve a simple payback of seven years or less.

(4) A relevant energy efficiency improvement achieves “a simple payback of seven years or less”, if it is calculated that the value of savings (“S”) is the same as or greater than the calculated repayment cost (“R”).

(5) For the purposes of paragraph (4), S is the value of savings on energy bills for the property that the relevant energy efficiency improvement is expected to achieve over a period of seven years beginning with the date of the completion of the installation of the improvement, calculated—

- (a) using the approved methodology,
- (b) using relevant energy prices.

(6) For the purposes of paragraph (4), R is the cost of the relevant energy efficiency improvement (“C”), multiplied by the interest rate factor (“F”), where—

- (a) C is the sum of—
 - (i) the cost of purchasing the improvement, and
 - (ii) the cost of installing the improvement (including labour costs), calculated using labour and installation costs as at the date the calculation is made, excluding value added tax, and
- (b) F is calculated as follows—

$$F = \frac{i}{1 - (1 + i)^{-7}} \times 7$$

where *i* is the Bank of England base rate in force at the time of the calculation.

(a) “Building Regulations Approved Document L2B: Conservation of fuel and power in existing buildings other than dwellings” ISBN 978 1 85946 327 7, published in December 2010.

(7) For the purposes of paragraph (5), a “relevant energy price”, in relation to a supply of energy to a property, means the “unit cost” of the supply of that energy to the property, excluding value added tax—

- (a) where the landlord has energy bills for the supply of that energy to the property for the 12 month period which ends on the date of the most recent energy bill for that supply, calculated by dividing the total cost of the supply of that energy for that 12 month period (including any fixed cost charged by the supplier of that energy), by the number of units supplied in that 12 month period,
 - (b) where the landlord has energy bills for the supply of that energy to the property for a period of less than 12 months in the 15 month period which ends on the date that the calculation is made, calculated by—
 - (i) estimating the total cost of the supply of that energy for the 12 month period which ends on the date that the calculation is made (including any fixed cost charged by the supplier of that energy) (“EC”), and the number of units of that energy that would be supplied in that 12 month period (“EU”), based on those energy bills, and
 - (ii) dividing EC by EU, or
 - (c) where the landlord has no energy bills for the supply of that energy to the property for the 12 month period which ends on the date the calculation is made, using the cost per unit for the supply of that energy charged by the landlord’s current, or intended, supplier of that energy on the date the calculation is made.
- (8) In paragraph (6), “Bank of England base rate” means—
- (a) the rate announced from time to time by the Monetary Policy Committee^(a) of the Bank of England as the official dealing rate, being the rate at which the Bank is willing to enter into transactions for providing short term liquidity in the money markets, or
 - (b) where an order under section 19 of the Bank of England Act 1998 is in force, any equivalent rate determined by the Treasury under that section.

Relevant energy efficiency improvements undertaken

29.—(1) Subject to paragraph (2), this regulation applies where—

- (a) the landlord of a sub-standard non-domestic PR property has made all the relevant energy efficiency improvements for the property, or
- (b) there are no relevant energy efficiency improvements that can be made to the property.

(2) This regulation applies for a period of five years starting with the date on which the landlord registers information in accordance with regulation 36(2).

Sub-standard property let in breach of these Regulations

30. In any case where a landlord lets, or continues to let, a non-domestic PR property in breach of regulation 27, that breach does not affect the validity or enforceability of any provision of the tenancy.

CHAPTER 4

Exemptions – domestic and non-domestic PR property

Consent exemption

31.—(1) Subject to paragraph (2), regulations 23 and 27 do not apply at any time when the landlord has, within the preceding five years, been unable to increase the energy performance indicator for the property to not less than the minimum level of energy efficiency as a result of—

(a) The Monetary Policy Committee was constituted on a statutory basis by section 13 of the Bank of England Act 1998 (c.11).

- (a) the tenant refusing—
 - (i) consent to any relevant energy efficiency improvement being made, or
 - (ii) to give any confirmation which must be obtained from the tenant by virtue of regulation 36 of the Framework Regulations before any green deal plan with which the landlord proposed to fund the making of the relevant energy efficiency improvement could be entered into, or
- (b) despite reasonable efforts by the landlord to obtain third party consent, that consent having been—
 - (i) refused, or
 - (ii) granted subject to a condition with which the landlord cannot reasonably comply.

(2) A landlord may rely on the exemption in paragraph (1) only where the landlord has registered information in accordance with regulation 36(2).

Devaluation exemption

32.—(1) Subject to paragraph (3), regulations 23 and 27 do not apply at any time when, within the preceding five years, the landlord been unable to increase the energy performance indicator for the property to not less than the minimum level of energy efficiency because paragraph (2) applies.

(2) This paragraph applies where the landlord has not made a relevant energy efficiency improvement because the landlord has obtained a report prepared by an independent surveyor which states that making that relevant energy efficiency improvement would result in a reduction of more than 5% in the market value of the property, or of the building of which it forms part.

(3) A landlord may rely on the exemption in paragraph (1) only where the landlord has registered information in accordance with regulation 36(2).

Temporary exemption in certain circumstances

33.—(1) Subject to paragraph (5), regulations 23 and 27 do not apply to a landlord until six months after whichever is the later of—

- (a) the date on which the landlord becomes, or continues to be, the landlord of that property by virtue of any of the circumstances set out in paragraph (2), or

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations introduce measures to improve the energy efficiency of certain private rented property in England and Wales.

Part 2 (*tenants' energy efficiency improvements*) comes into force on 1st April 2016, and enables the tenant of a domestic private rented property (that is, a property let on an assured tenancy for the purposes of the Housing Act 1988, a property let on a regulated tenancy for the purposes of the Rent Act 1977, or a property let on a tenancy prescribed by the Energy Efficiency (Domestic Private Rented Property) Order 2015) to make a request to their landlord for the landlord's consent to the tenant making prescribed energy efficiency improvements to the property. The landlord, and any superior landlord whose consent is required before they can be made, must not unreasonably refuse consent to the improvements specified in a tenant's request, unless exemptions set out in the Regulations apply, or the landlord proposes alternative energy efficiency measures. The tenant may apply to the First-tier Tribunal on the ground that the landlord or superior landlord has failed to comply with obligations in relation to the tenant's request.

Part 3 (*minimum level of energy efficiency*) comes into force on 1st October 2016, and applies to domestic private rented property, and to non-domestic private rented property (that is property which is let under a tenancy and is not a dwelling). It prescribes a minimum level of energy efficiency for private rented properties: that is, is an energy performance indicator (evidenced on the energy performance certificate for the property) of band E.

It provides that, subject to prescribed exceptions, a landlord of a domestic private rented property must not grant a new tenancy of the property after 1st April 2018, and must not continue to let the property after 1st April 2020, where the energy performance of the property is below the minimum level; and that the landlord of a non-domestic private rented property must not grant a new tenancy of the property after 1st April 2018, and must not continue to let the property after 1st April 2023, where the energy performance of the property is below the minimum level.

It makes provision for the enforcement of the requirements of Part 3 by local authorities in relation to domestic private rented properties, and local weights and measures authorities in relation to non-domestic private rented properties ("enforcement authorities"). Landlords seeking to rely on a prescribed exemption when letting a private rented property which falls below the minimum level of energy efficiency must register that exemption on a register maintained by the Secretary of State. Where an enforcement authority considers that a landlord may be in breach of a requirement of Part 3, it may serve a compliance notice requiring the landlord to provide evidence to the enforcement authority. Where an enforcement authority is satisfied that a landlord is in breach, it may issue a penalty notice imposing a financial penalty, and a publication penalty (which consists of publishing the details of the breach on the register). The landlord may request a review of the penalty notice by the enforcement authority and, where a penalty notice is confirmed on review, may appeal against the imposition of the penalty notice to the First-tier Tribunal.
